GERMANS CAPTURE FRENCH LINE

Take Over 2000 Yards of Trenches and
One Village in Northern France

(Special to The Herald)
Berlin, Jan. 29.—A great battle in Northern France has been extended south of the Somme river. The German war office today announced the capture of the village of Frise, south of the Somme and one thousand yards of trenches south of the village. North-east of Neuville, St. Vaast, the Germans took by storm 1,700 yards of French trench.

SUPREME COMMAND OF FRENCH ARMY

Gen. Joffre Given Absolute Authority
Over all Military Operations

(Special to The Herald)
Paris, Jan. 29.—Supreme power for the direction of all military operations of the French army has been vested in General Joseph Joffre, the commander-in-chief. Henceforth the war office will have nothing to say what-

DEATH RATE IN NEW HAMPSHIRE

Concord Has the Highest and
Nashua the Lowest.

According to a mortality table for cities over 10,000 inhabitants and less than 100,000, issued by the bureau of the census at Washington, the smallest percentage of deaths in New Hampshire during 1914 was in Nashua. The rate was 13.7 and is based on

deaths per thousand.
Keen, with 155 deaths is second with a percentage of 14.5, and Concord with 160 deaths is highest with a percentage of 20.5. Naturally, Manchester being the largest city, the most deaths occurred there, but the percentage was only 15.5. The deaths numbered 1,250.

GERMANY BUILDING 22-IN. GUNS

Report From Petrograd That
New Big Guns Will Be
Used in Spring.

(Special to The Herald)
Petrograd, Jan. 29.—Russian correspondents on the Western front have sent word here that the Germans are reported to be making 22-inch guns for use in their spring campaign. The biggest gun reported to have been used by any of the armies is the Krupp forty-two centimeter gun which measures 16 1/2 inches. However, A. J. Balfour, first lord of the admiralty in the British cabinet, recently announced that the English government is without proof that any such gun as the forty-two centimeter exists.

PRESIDENT'S BRIDE THE ATTRACTION

Wilson and Party Given Big
Reception at Pittsburg.

(Special to The Herald)
Pittsburgh, Jan. 29.—President Wilson is not the chief attraction on his flying trip through the Middle West to preach the doctrine of preparedness. This was apparent when the party made the first stop here today for it was Mrs. Wilson who drew the crowd on their arrival. The train arrived here this morning and the President and party was met by a delegation of prominent men and they were escorted to the hotel. Despite the fact that the station at which the President arrived was kept a secret, crowds greeted the President all along the route to the hotel and they gave the President and his wife a rousing reception. The chief executive seemed to realize that the cheers were more for Mrs. Wilson than himself. The President and Mrs. Wilson dined at the hotel in private and later a committee of prominent Pittsburgh women escorted Mrs. Wilson to Memorial hall where the President made his first speech today.

UNITED STATES HAS MADE NO DEMAND

Sec. Lansing Denies that Germany Must
Disavow Sinking of Lusitania.

(Special to The Herald)
Washington, Jan. 29.—After refusing at first to discuss the report that the United States has demanded that Germany specifically disavow the sinking of the Lusitania not later than Feb. 5, next, Secretary Lansing reconsidered his determination and emphatically denied the report. "There is absolutely nothing to the story," that is all that he would say about the matter for publication but he made it plain that he had not made any engagement to see Count Bernstorff in the immediate future and that he will not see him until the latter hears from Berlin.

LOCAL NAVY YARD PRAISED FOR WORK

Commanding Officer of the San Francisco
Says Repair Work Was Excellent

A bit of pleasing news has reached the Portsmouth navy yard and it comes from Commander Arthur McArthur, commanding officer of the U. S. S. San Francisco, flagship of the mining and mine sweeping division, which recently left the local station after a repair period.
Commander McArthur takes occasion to praise the yard management and its workmen in the following:
"The repairs in the steam engineering department of this ship by the navy yard, Portsmouth, N. H., during the recent overhaul period, having been thoroughly tested by practically continuous steaming for ten days, immediately after leaving the yard, three days of which being at fourteen knots speed, are of such a satisfactory nature that it is believed special attention should be invited to this creditable result.
"These repairs were accomplished not only efficiently and promptly, considering the unusual amount of work on hand at that time, but were characterized particularly by the hearty cooperation and personal interest of the men and supervisors concerned, and especially by the officers in charge."
On the receipt of this letter of appreciation and praise, General Manager Adams of the Industrial Department in turn thanked the men in the following which has been posted in all branches of the departments:
"The Industrial Manager desires to take this opportunity to express his appreciation of the work done by the entire yard, not only on this vessel, but also on other vessels and on manufactures, and to thank all for their hearty co-operation in turning out excellent and efficient work, which at times has had to be done under the most trying conditions.
"The excellent work done by the yard is obtaining rapid recognition by the navy department, with the result that more and more work of various kinds is being assigned here, as it becomes clear that the yard can be depended upon to efficiently perform the work given it. Good showings of this character result in more work and

charge of shop management, all shop work, the co-ordination thereof, etc., and the distribution of the working force.

In addition to them, credit is especially due also to Mr. F. P. Hayes, master machinist (outside), and Mr. P. L. Waaser, master machinist (inside). "It might also be pertinent to add that, under the organization in existence at this yard during the past year, there has not been a single complaint regarding the work on any vessel. On the contrary, almost every commanding officer has called on the Industrial Manager before departure and expressed his satisfaction with and his appreciation of the work done by the yard. This, however, is the first time it has been actually put in a written report. The officers of the Industrial Department and all foremen now in the yard and the drafting and clerical forces have been most zealous in their work and have given their most hearty co-operation in all ways.

OPPOSITION TO BRANDEIS WEAKENING

That Senate Will Confirm His
Appointment Disclosed by
Canvass.

(Special to The Herald)
Washington, Jan. 29.—The opposition in the senate which started against the confirmation of Louis D. Brandeis to be associate justice in the supreme court, had materially weakened today. Senators who have canvassed the situation insist that not only will he be confirmed, but the opposition will be in the hopeless minority. In connection with the suggestion that Senator Hoke Smith would lead the fight against Brandeis, was denied by the senator himself.

RUSSIAN SHEELS DESTROY VILINA

Germans Are Forced to Evacuate City Which Is
Burning.

(Special to The Herald)
Petrograd, Jan. 29.—The city of Vilina, now held by the Germans, is burning. Fires set by Russian shells have been raging for several days and it is understood that the Germans are the city that is still standing.

NEWBURYPORT HAS \$10,000 FIRE

(Special to The Herald)
Newburyport, Jan. 29.—The retail shoe store of J. H. Babb in the business district was gutted by fire early today with a loss of \$10,000. For a time the property adjoining the building was threatened. John D. Nelson and John Pettigall, who live over the store, narrowly escaped death.

SOLE AGENT FOR THIS CITY

WENEHASA DEFEATED ST. JOHN'S PREP

Took Visitors Into Camp in Return Game by Close Score at 29 to 26 in One of Best Games Played at Y. M. C. A. This Season.

After forty minutes of the hardest and fastest kind of work at the Y. M. C. A. gymnasium last evening Wenehasa won their basketball game from the first St. John's Prep school team of Peabody, Mass., 29 to 26. It was played before a big gallery of enthusiastic fans and was a clean, hard battle with excitement enough to last for a month. One minute after the game started L. Smith, one of the star athletes of the school, caged a pretty basket and followed it with another one a moment later.

The score was tied within three minutes by two baskets thrown by Butler and Davis. Davis caging one from the center of the floor after some pretty team work. The first period ended with the Wenehasa team seven points in the lead, both teams playing for all there was in the game, but clean all the way through.

In the second period the visitors came back strong and rushed things along until they tied the score at 25, three minutes before the end of the game. The baskets caged by Craig and one foul thrown by L. Smith of the visiting team, ended the scoring.

For Wenehasa all five men played a steady, hard game. Mulholland and Smith working like machines at guard and breaking up the excellent team work of their opponents. Craig was the biggest point gainer with Butler and Davis throwing goals at every opportunity.

For St. John's School L. Smith played the feature game, mixing into every play. Welch and McClellan also played well.

SEVERAL EXPERTS PREDICT WELKER COCHRAN WILL SUCCEED WILLIE HOPPE

New York, Jan. 28.—Several billiard experts who have watched the playing of Welker Cochran, the boy wonder in his exhibition games, with F. H. C. Cassin, the French champion here are of the opinion that in a few years he will succeed Willie Hoppe as the greatest of all billiard players. Cochran hails from Madison, N. J., and is the youngest member of the Billiard Players' league. His marvelous skill with the cue has placed him among the foremost players of the world at the early age of 17. This wonderful talent comes from the ranks of the newsboys.

He began to play billiards six years ago at that time he was selling papers and putting in his spare hours at the billiard table. He liked the game, and it was not long before he knew that he could play it. Then he went to Chicago where he soon became a real sensation. There he was taught the finer points of the game and developed into the most phenomenal player of recent years. He has shown sufficient skill with the cue to give promise of wrestling the world's honors from Hoppe. His friends believe that he will succeed.

AT ONCE! STOPS STOMACH MISERY AND INDIGESTION

"Pape's Diapepsin" makes sick, sour, gassy stomachs feel fine.

Do some foods you eat, hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, let this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quiet, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no bloating, no eruptions of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

OLD DEED FILED AT EXETER

Exeter, Jan. 28.—A deed over 152 years old, concerning a transaction in South Hampton before the Revolution, was today sent to the Rockingham county registry of deeds to be placed on record.

The old document which never before had been recorded, conveys a tract of pasture land of Nathaniel Noyes, pastor of the Christ church of that town to the town of South Hampton, it being made to the selectmen, Richard Collins, landholder, and Abel Brown and Abel French, husbandmen, as agents of the town, the conditions were that the land should be used for religious purposes.

The deed bears date of May 18, 1763, the third year of the reign of George III, King of England. The document was sent in by ex-Secretary Frederick B. French of South Hampton who is somewhat of a historian. It is very legible but yellow with age, and Mr. French has had it pasted on a stiff piece of paper so that it cannot become torn where the folding creases have become weakened.

The witnesses were Nathaniel Morrill, and James Morrill, Jr.

Officials in charge at the office were much surprised when the relic of Colonial days was received, and made a careful inspection to see if it had not been recorded before, but it was seen that it had not.

KITTERY

The second annual guest night of the Riverside Reading club has come and gone and in how but a happy memory. To say that it was a huge success would be stating it mildly. It was one of the most pleasant affairs that the club has ever known. Supper was served at 6:30 o'clock in the vestry of the Second Methodist church, with covers laid for 66. The menu was as follows: Escalloped oysters, salads, baked beans, potato chips, rolls, olives, pickles, pie, cake, ice cream, coffee, salted nuts.

A very fine program was given as follows:

Selections by an Arpula. Violin solo by Mr. Berger. Reading by Miss Anna Renick. Address "Work of Women's Clubs" by Mrs. Mary L. Wood, Portsmouth. Vocal solo by Mrs. Rumer. Reading by Miss Renick. Miss Bernice Glidden was the accompanist. The program was thoroughly enjoyed by everyone, Mrs. Wood's address being especially interesting.

Mrs. Charles A. Gerry was in charge of the supper arrangements, assisted by nine other members of the club. Mrs. G. H. D. D'Amoreux had charge of the program, and it was through the earnest efforts of these two women that the success of the affair was due.

Willard Chick of North Kittery is recovering from an attack of the grippe which has restricted him to the house. Mrs. Cora Blaney has returned to her home in North Kittery from Portland where she has been passing a few days.

James Dwyer of Dix avenue returned Thursday evening from a visit in Lowell, Mass.

The members of the Philatheta club are to serve a chaffing dish supper in the near future. It will be followed by a musical and literary program.

Mrs. Samuel Hodgdon of Westworth street passed Friday with relatives at Kittery Point.

Mrs. Mattie Pierce is still confined to her home in North Kittery by illness.

Mrs. Martha Hopkins of Rogers road has returned from Portland where she has been passing a few days.

A party of friends and neighbors of Mr. Augustus Stevenson spent Friday evening with him at his home in North Kittery.

On Monday evening an entertainment will be given at the First Methodist church, North Kittery. The program will consist of the presentation of the sketch, "The Family Album," readings, piano and vocal solos, and a talk upon the West by Mr. Harry Longstaff.

Mrs. Selwyn Caspell of North Kittery was the guest of Mrs. C. B. Perry of Kittery Point on Friday.

Miss Emily H. Bilbuck of the Junction is visiting relatives in North Kittery.

Mrs. Howard Langdon of Central street is improving from her illness, leaving in the vestry. A fine program Naomi, the little daughter of Mr. has been arranged. The pastor's cabi-

and Mrs. Robert H. Stanley of Dame street in Ill.

Miss Hattie Emery of Government street is able to go out doors again after her recent illness.

The S. V. Club was pleasantly entertained on Friday evening by Mrs. Henry Mendenhall at her home at Kittery Point. During the evening refreshments were served by the hostess. The next meeting will be held with Miss Gussie Phillips on Friday evening, Feb. 12.

Miss Nellie Lewis of Kittery Point passed Thursday in town the guest of her sister, Mrs. Nelson Webb of Newmarket street.

The letter written by a fellow townsman and published in this paper, hits the nail on the head about the toll bridge question. It is a letter that all citizens of Kittery should read and think about—and then act. Why can't a petition be sent to our congressmen to hurry things up a bit? Let us do something and at once!

Mrs. Aaron B. Cole of Government street has been called to visit by the death of her father.

Mrs. J. Wesley Hollis of Attleboro, Mass., has been the recent guest of Mrs. Elroy Cottle of Kittery Hill.

The following officers of Canton Hayes No. 7, were installed on Friday evening:

Captain—J. V. McAndrews. Lieut.—Pearl S. Cole. Ensign—E. S. Standish. Clerk—L. E. Robbins. Accountant—Joseph M. Hickey.

The installing officer was Captain Leon E. Robbins, assisted by Past Captain Frank Conroy as aide and Past Captain E. T. Hatch as adjutant. Refreshments were served following the work, which was done in a very efficient manner.

Second Methodist Church. William M. Pomeroy, minister; Mrs. Harriett Bilbuck Clough, organist.

10 a. m., Sunday school in the vestry. Be on time.

11, Morning worship; sermon by the pastor on the subject: "The First Things of Life," Mr. Ernest Wood, soloist.

3:30 p. m., Junior Epworth League will meet in the vestry. All children from ten to fifteen years of age are invited.

4:30, Praise service in the vestry. All are invited to come.

5, Vesper service; sermon by the pastor on the subject, "What Kind of a Young Man Should a Young Lady Marry?" Write your letter now if you have not done so. Letters will be read at this service. Special music by the Ladies' Quartet, composed of the following: Miss Bernice Glidden, first soprano; Mrs. F. F. Hahnock, second soprano; Mrs. Hylon Walker, alto; Mrs. Leslie Corbin, contralto.

Epworth League meets in the vestry. Subject, "The Meaning of Disappointment."

Prayer meeting on Tuesday evening at 7:30. Official board meeting immediately after the prayer meeting. "The Dollar Social," under the auspices of the Ladies' Aid will be held Thursday evening in the vestry. A fine program Naomi, the little daughter of Mr. has been arranged. The pastor's cabi-

BOTTLERS AND DRIVERS SEAT NEW OFFICERS

SEMI ANNUAL INSTALLATION OF PORTSMOUTH UNION, HELD LAST EVENING AND FOLLOWED BY BANQUET.

At the semi-annual installation of the Bottlers and Drivers' Union, No. 229, International Union of the United Brewery Workers, the following newly elected officers were seated last evening at a meeting held in N. E. O. P. Hall.

President—John Goodrich.
Vice President—Leo L. Shea.
Secretary and Treasurer—Patrick Hussey.
Financial Secretary—Charles D. Lewis.

Corresponding and Recording Secretary—George R. Dawson.
Sergeant at Arms—Dennis Kelley.

The work of installation was performed by Milton B. Clark, president of the local of the Typographical Union, at the request of Richard A. Cooney, president of the Central Labor Union, who was prevented attending by a severe illness.

Following the work a banquet was served; the members and Charles B. Lewis officiated as toastmaster, introduced by President Goodrich. Mr. Lewis, in his usual humorous and happy manner, called on several of the officers and others for assistance in an informal entertainment program.

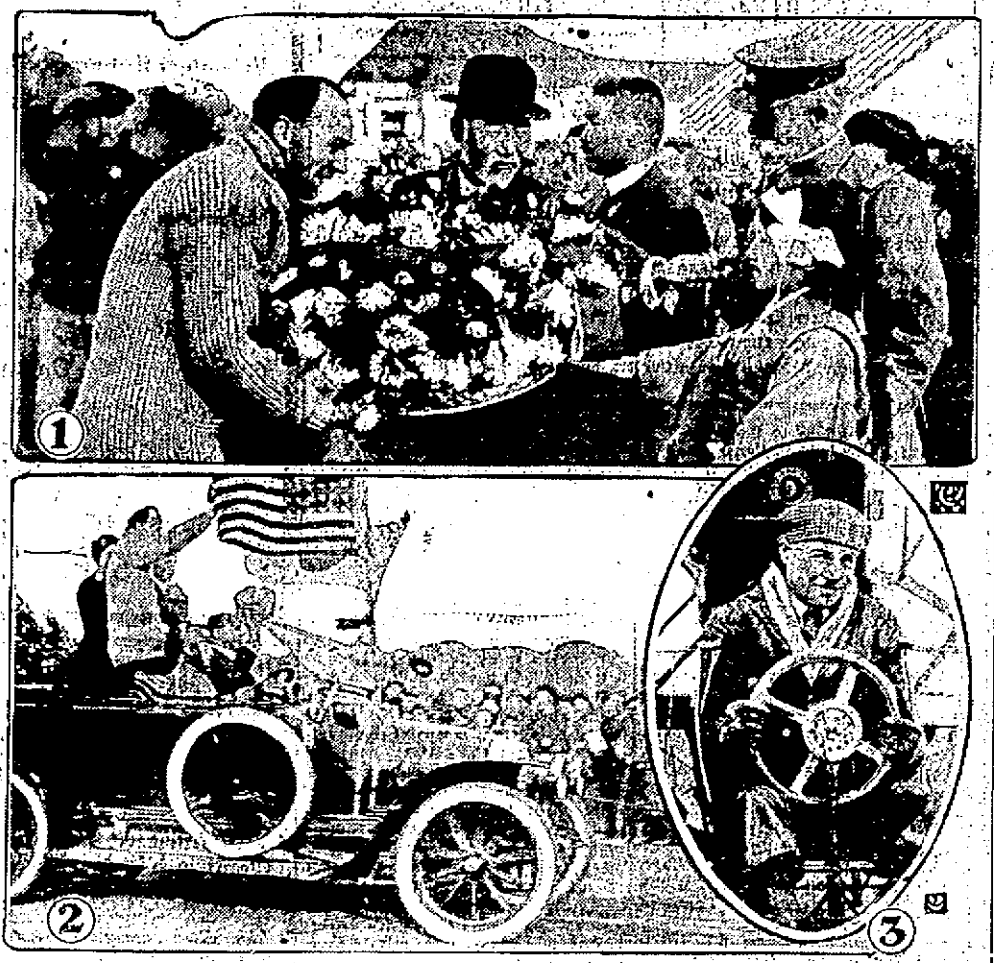

Among those responding were Bartholomew Connors, president of the Brewery Workers Union, John Quirk, secretary; Charles Bangay, president of the Painters Union; Harry Dowdell, introduced as one of the "sweet singers of Israel"; Howard S. Kneeland, musician of the Union; Eugene Sullivan, all of Local 229; and Jeremiah Heardon, vice president of the Brewery Workers Union.

During the banquet and social hour which followed music was furnished by an orchestra under the direction of Howard S. Kneeland.

SALES OF AMERICAN COTTON GOODS IN CHINA.

Washington, Jan. 28.—There is a splendid opportunity at present to increase the sales of the better grades of American cotton goods in China. This is the final opinion of Special Agent Ralph M. Odell, who has spent six months in China investigating the market for cotton goods for the Bureau of Foreign and Domestic Commerce, of the Department of Commerce. Of late years the Japanese and Chinese mills have made a strong bid for the trade in cheap cotton and competition in that line is much more severe than in the better grades. Chinese imports of piece goods total about \$75,000,000 a year, and the American share of this has for the last five years been maintained at between five and six million dollars, which is somewhat below our share in previous years.

"DO ANYTHING" NILES SHOWS JAPANESE SOME OF THE LATEST AVIATION STUNTS

"Do Anything" Niles, also known as "Daredevil" Niles—his real name is Charles F. Niles—recently went to Japan to show the people of that country some of the latest sensational stunts in aviation. He succeeded in opening their eyes and they acclaimed the American as a hero. High officials joined in paying tribute to the daredevilry of Niles. Picture No. 1 shows General Nagatsuka of the Japanese army and his daughter giving Niles a floral present; No. 2, Niles showing himself to the crowd after a flight; No. 3, the aviator in his machine.

The war in Europe, according to Mr. Odell's report, has curtailed the purchasing power of the Chinese people, but it has also restricted the exports of cotton goods from the principal European source. Stocks throughout the country are gradually diminishing, and it is likely that there will be an actual shortage in the near future. If full advantage is taken of the present opportunity by American manufacturers who are willing to find out just what the market wants and then supply it, it is probable that American cotton goods will regain the position they once held. "In spite of the pessimistic views of some of those who have watched the rapid decline in our trade in sheetings and drills in Manchuria, there are excellent grounds for the belief that American ingenuity and modern methods of manufacture will yet make it possible for the United States, the second largest producer of cotton goods in the world, to secure an appreciable share of the trade in this large and expanding market if we will

avail ourselves of the opportunities which await us and which have been partly created by the present worldwide conditions."

In normal times China is the largest market in the world for cotton yarns and the second largest for cotton piece goods. The value of the yarn brought into the country averages about \$13,000,000 annually and of piece goods about \$76,000,000, and it is estimated that the domestic production of piece goods equals the quantity imported, so that the total consumption of cotton piece goods may be stated as \$150,000,000. Ten years ago American cotton goods had a large sale in China; in fact, China was the largest foreign market for such goods. Some ground has been lost, however, by reason of competition from Japanese and, very recently, from Chinese mills.

The necessity for a thorough understanding of the situation led the Bureau of Foreign and Domestic Commerce to send a special agent to make an investigation on the ground, along the same lines that the Bureau has followed in studying the cotton-goods markets in practically every country in the world. The results of the investigation are set forth in a 242-page monograph entitled "Cotton Goods in China." This report is an exhaustive one, including chapters on yarn and thread, grey and white piece goods, grey sheetings, drills and jeans, grey and white shirtings, trade methods, currency, tariffs, shipping, practical suggestions, cotton manufacturing in China, handloom weaving in China, native supply of raw cotton, and the South China cotton-goods trade. There are also extensive lists of importers. Mr. Odell made a collection of samples of the cotton goods in demand in China and this collection is being sent around the country for examination by cotton-goods manufacturers. The report, which is officially designated Special Agents Series No. 107, is sold for the nominal price of 25 cents by the Superintendent of Documents, Government Printing Office, Washington, and by the district offices of the Bureau of Foreign and Domestic Commerce.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten soars in the stomach much like garbage soars in a can, forming acrid fluids and gases which inflame the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

"THE CHINA WEDDING"

Just twenty years ago tonight A happy bridegroom and his bride Stood smiling 'neath the altar light, And pledged their truth, what e're be-tide.

They vowed to cherish, love and keep These marriage vows unselfish giving; And tread the path of truthful light Leading to happiness and heaven.

Four girls the happy union blessed, Bringing that happiness only known To those whose love is best expressed In children, who delight the home.

Edith, the first born, brought them joy Then Mildred did their union bless; Gretta and Doris came to enjoy The love in their fond parent's breast.

Tonight each loyal friend has come To keep their twentieth wedding day; May sorrow's shadows be unknown When love and happiness hold sway.

PRESENTED WITH LOVING CUP ON DAY OF RETIREMENT

PUPILS OF HAVEN SCHOOL MADE GIFTS TO MISS ROTHWELL ON HER LAST DAY AS PRINCIPLE

Miss Matilda F. Rothwell, who has served in the capacity of principle of the Haven School for some years, was the recipient of a silver loving cup and a large bouquet of pink flowers from the pupils of the sixth grade, Friday afternoon, the gifts having been made as a token of the respect and love of the pupils who have studied under her charge. The occasion was the retirement of Miss Rothwell from the teaching profession, under the newly instituted pension system.

The gifts were purchased by the pupils from money earned by them, the following being the names of the donors:—Frances A. Sarkin, Emerson Miles, Clara Clark, Eugene Clark, Harold Clark, Sophie, Shapiro, Vera Pecunas, Ethel Adams, Arthur Smith, Ruth Tilton, Wadleigh Woods, E. Virgil, Edward Pendergast, J. O'Rourke, F. Johnson, M. Shransky, Mildred Marston, Irving Johnson, Frances Hand, Gladys Clark, Reginald Clark, Harold C. Clark, Ruth Emery, L. Dow and Charles Ulmer.

The cup was inscribed:
"From the Sixth Grade to M. F. Rothwell, January 23, 1916."

The gifts came as a complete surprise to Miss Rothwell and were presented during a little social gathering which she had planned for her last day with her little friends. Refreshments of fancy waters and confectionery were served the pupils by Miss Rothwell and she expressed her pleasure and appreciation to the children for their kindness.

QUINN APPOINTED LIQUOR INSPECTOR

GOVERNOR AND COUNCIL NAMED PORTSMOUTH MAN TO IMPROVE TANT OFFICE.—DOVER MURDERER DENIED PARDON.

Charles R. Quinn of this city was nominated state liquor inspector by Governor Spaulding yesterday and his nomination was confirmed immediately by the council. Mr. Quinn was one of several candidates for the position and his appointment is expected to meet with popular favor, as he is well known throughout the state.

Mr. Quinn was for fourteen years a member of the Portsmouth Police Department and served for a time as sergeant. After his retirement he engaged in business in this city, opening a collection office and acting as a private detective. In this work he was active on several important cases.

For the past three years he has served as the State Inspector in the motor vehicle department under the office of the secretary of state. In his present position he takes the place of Inspector Halley of Nashua.

The governor and council also denied a pardon to John Williams, the Dover murderer, who was committed to the state prison Nov. 7, 1906, for fifty years. Governor Spaulding recommended the pardon, but the council refused by a vote of three to two, as follows:

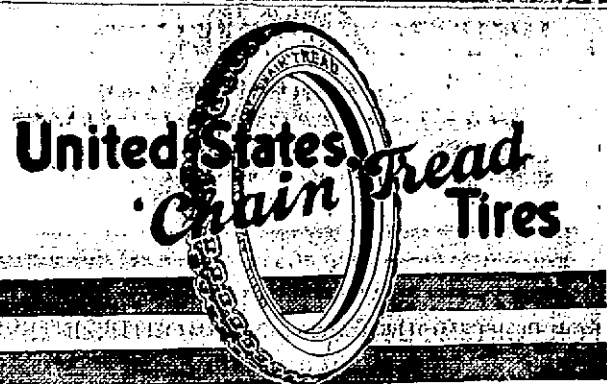

Councillors Cavanaugh and Huntres voted yes and Councillors Scammon, Wallace and Carter no.

Since the incarceration of Williams various attempts have been made to secure his liberation, when Col. S. S. Jewett of Lancaster appeared as counsel for the prisoner, who had the backing of Senator Gallinger, Judge James W. Rensick and other influential men and women.

BOSTON LETTER

Boston, Jan. 28.—Dr. Lester Howard, chief of the Bureau of Animal Industry, warns cattle owners of the state that in all probability an extraordinary number of infected animals will be discovered this year because last year the inspectors were engaged in stamping out the foot and mouth disease and could not give the required time to routine examinations. He said that the state is making every effort to have cattle and swine kept under conditions that will prevent the spread of disease, with the result that there has been a decrease in the number of infectious cases. Glanders, he said, fell off 53 per cent last year. He used this as an illustration to show what might be accomplished with the proper supervision, saying that if such a reduction should be made in a single year, it was possible to eradicate the disease or lower the number of cases to a negligible quantity.

Effective—Efficient—

We have produced in the United States 'Chain' Tread a tire that we sincerely believe to be the most effective, efficient, high-grade anti-skid casing in the world at its price.

The 'Chain' Tread is so scientifically, so conscientiously made that in it there is absolutely no danger of a loose tread, or of disintegration under the tread.

It is strong, durable, reliable, good to look at. In every respect it is far mightier than the road.

To you who want a tire that is effective, efficient in the highest sense—a tire that sells at prices which make it one of the most unusual values now offered to motorists—a tire which has continued to increase in sales by leaps and bounds—we most heartily recommend the United States 'Chain' Tread Tire.

Crocker submitted material to the governor in favor of the enactment of two bills, now before the Legislature, the first designed to afford the Boston & Maine an opportunity to secure state aid, and the second, to repeal last year's "reorganization" act. Crocker went exhaustively into the Boston & Maine situation during its decline from a sound railroad property up to the present time. He stated that eminent counsel contented that the trustees appointed under the court decree to administer the New Haven's interest in the Boston & Maine have no legal right to reorganize the Boston & Maine.

The Acme of Preposterousness.

Perhaps there never was a time in the history of the country when ideas, propositions and programs of reform were so cheap as they are today. And the trouble is that many of these are as cheap in quality as they are in price. Numberless are the men and women who are traveling up and down the land, telling how to make the rough places smooth and the crooked things straight, yet in spite of it all there are many rough places, and many transactions in private and public life that are exceedingly crooked.

Some of the ideas advanced for bettering conditions are good and others are merely fire-schemes while still others are simply amusing. The reader is at liberty to judge for himself under which heading to classify the position taken by a speaker in a recent address in Boston on the subject of immigration. He took the ground that while there is room for many more millions of people in this country we should admit them only as fast as we can assimilate them, and there should be no discrimination between Asiatics and Europeans. He said: "We can admit freely Asiatics as well as Europeans up to the numbers we can assimilate. Any more than the native laborer protected by law and organization so that no aliens are employed while natives are unemployed, and immigrants are compelled to accept the American standard of living."

Just how immigrants could be compelled to accept the American standard of living while being ruled out of employment whenever there were enough native laborers for the jobs the speaker did not explain. There is a great deal said about the "American standard of living," but so far as recalled, this is the first time it has been proposed to force it upon immigrants with their hands tied behind them.

But this is only a sample of the truth that is being let loose at present in quantities altogether too large for comfort or profit. The shouters and writers keep everlastingly at it while the workers go calmly forward in the endeavor to better conditions here and there, where betterment is possible. Much has been and is being accomplished and there is much more to be done, but good could never result from a plan which would deny a man employment and at the same time compel him to rise to a certain standard of living. Such a proposition is the acme of preposterousness.

Now there is a plan to patrol the Atlantic and Pacific coasts with aeroplanes as an adjunct to the coast guard in time of war and to assist the life-saving service in time of peace. If the machines can be of any value in the latter field, well and good. The worry over "invasion" is altogether out of proportion to the danger.

Boston theatre owners have appealed to Congress for relief from the special war tax on theatrical premises. The appeal is based on the ground that the theatre business in that city is under great depression. But no one has heard any complaints from the "Movies."

Seven more members of the Ford peace party have reached home, one of them in a casket. Of all the fiascos in connection with the present world upheaval that expedition stands at the head—in proportion to its size.

There is no denying the fact that the star of Colonel Theodore Roosevelt as a possible nominee of a United Republican party is ascending and is extremely bright at this hour.

One of the R. B. Phillips companies, which was to have been in a merger with the Portsmouth munition factory, has just declared a dividend of two hundred per cent.

The January thaw was the real article this year. It even affected the price of eggs; but it is to be noticed that the price of coal is not tumbling to any extent.

England has about as much respect in regard to American laws and neutrality as an elephant has for a mosquito, so far as indications point.

England has full access to the American Press and people are discovering that Germany has been lied about to some extent.

There seems to be an impression hereabouts that Ex-Secretary Meyer received what he deserved at the Metropolitan Club.

England's treatment of a German submarine crew cannot be blotted out of the minds of many Americans.

Portsmouth responded generously for the relief of the stricken Jews in the war zone.

STATE CANNOT REIMBURSE FARMERS

Must Take the Loss From Anthrax Themselves

That the state of New Hampshire cannot legally reimburse them for the cost of damage done to their property in the fight against anthrax, was the only reply decided upon for the Whitefield men at Friday morning's session of the governor and council.

It will be remembered that a good deal of loss was sustained by the farmers in that town when the authorities took the anthrax situation in hand. In one instance some \$1000 worth of hay being condemned. The users sought reimbursement and last week were given a hearing by the executive council. Now it appears that the state is again handicapped in the way of settling the debt, and the Whitefield men are left to their own devices.

That the probability is a settlement of the matter by the state will be made soon was indicated today when in the name of the present incumbent, Judge Frank P. Chase, was brought before the governor's council and informally voted upon. The vote stood three to two in favor of Judge Chase's recommendation.

Judge Chase is holding his present position as a holdover from the 1916 session of the legislature when the police department was reorganized. He holds the judgeship until the governor's council appoints his successor. Governor Spaulding has been favorable to the recommendation, but did not bring Judge Chase's name up, owing to the fact that the general impression is that a majority of the board were against him. Today, however, an informal vote was taken at which Councilman John B. Cavanaugh of Manchester, John Scammon of Exeter and John A. Carter of Concord voted in favor of the recommendation and Frank D. Wallace of Candan and Frank H. Huggins of Keene voted "no."

A formal vote will be taken at the next meeting of the council on February 25.

The Observer

It is certainly amusing at this time to have other parties claim the honor of saving the Old South Church at the big fire in Boston. The honor has been given to members of Kearns Engine Company No. 3 of this city by both the press and the older citizens in Boston who look back in the memory of the great blaze. The delegation that accompanied the Portsmouth steamer on this occasion was headed by Mayor Thomas H. C. Murfin and Chief Simon L. Marston and was selected from the various companies. Of those who took part the greater number have answered the final summons, but the following are still living in this city: Nathan F. Ames, at present a member of the department; George N. Jones, engineer of steamer A. Ira C. Seabury; who was foreman of steamer A at that time; Charles A. Wengell, Henry M. Gregg, Frank Osgood, Albert C. Plummer, James Warburton. Anyone of these gentlemen will tell the skeptical that it was the Kearns that did the trick. The detail from Portsmouth was a non-descript array being without uniforms and as they passed through the streets of Boston drawing their engine by hand, owing to prevalence of an epidemic of horse disease, they were greeted with derision as "the haymakers." Their later good work in saving the Old South, however, made them the heroes of the hour. In conclusion it may be stated that on the return of the ship and daughters on July 4, 1873, the Boston delegation carried a hand-somely painted banner on which was inscribed: "Portsmouth Haymakers Saved the Old South Church."

How many of our citizens recall the grand hall given in this city in commemoration of the one hundredth anniversary of the introduction of the art of printing in New Hampshire? The writer through the courtesy of Arthur G. Brewster was recently

CURRENT OPINION

Warfare the Worst of Evils That Can Befall Society

I know there are cases in which war is morally unavoidable and that the preparation for war in time of peace may be regarded as axiomatic, but I know also that at its best war is the worst of evils that can befall society.

America alone finds time for science and scientific congresses. Behold an eloquent appeal in favor of peace.

The men of science are by war taken away from their studies and made to slaughter their fellow men instead of helping to enlighten them. And when the war shall have ended it will leave us a generation of weakened, prematurely aged and practically useless men.

While the eastern hemisphere throbs with the excitement of human passion the Christ child raises his hands in blessing over the nations of America.

These John Kivel of Dover made his first appearance in this city last week at the presiding judge of the superior court for Rockingham county and all who have been present at the sessions have been greatly impressed at the courteous and able manner of Judge Kivel. While one of the latest appointed judges of the state, Judge Kivel is not lacking in experience as he had practiced law in Dover for a great many years and was considered one of the ablest lawyers in Rockingham county. During the famous Swattle case that when Isaac Swattle was convicted of the murder of his brother, Judge Kivel held the important office of prosecuting attorney at Stratford county and conducted the prosecution. Swattle had as his counsel James A. Edgerly of Great Falls, one of the keenest lawyers of those days who left nothing undone to secure the acquittal of his client. After County Solicitor Kivel had secured the conviction he was warmly congratulated on his success by the members of the bar, the Boston officers and a newspaper man in attendance. Judge Kivel's long experience in the practice of law, ability and his present position and it is safe to say that he will do honor and credit to his present responsible position as well as dispense justice with due and thoughtful consideration.

GOVERNOR SENDS FORMAL ACCEPTANCE

Notifies Exalted Ruler Chaney That He and Staff Will Attend Charity Ball

Mr. Ernest L. Chaney, Exalted Ruler of Portsmouth Lodge of Elks, has received the following letter from Governor Spaulding, accepting the invitation to attend the Charity Ball, Feb. 17.

Mr. Ernest L. Chaney, Exalted Ruler, B. P. O. E. Portsmouth, N. H.

"Dear Sir—It gives me pleasure to accept, in behalf of myself and staff, the invitation of Portsmouth Lodge of Elks, to attend the charity ball under its auspices on the evening of Thursday, Feb. 17.

"Yours very truly,
(Signed) Roland H. Spaulding, Governor."

The Elks have developed a novel method of ticket selling, and there is already some warm competition among the members. The lodge members were divided into twelve teams of 25 men to a team, under a team captain, and the race is to see which team will sell the most tickets or turn in the most money. There are prospects of one or two matches and a team supper is being talked as a wager between two of the teams, the loser to do the entertaining.

THE TOLL-BRIDGE BURDEN

The Helpless Condition of Kittery Under Present Arrangements.

Editor Herald:

May I ask what is being done on the interstate or interprovincial proposition to free the Portsmouth and Kittery toll bridge? This proposition has been entirely abandoned? Must the people of Portsmouth and Kittery perpetually suffer from this leech upon their wages and their incomes? Must we all be forever helpless in the matter?

An instance of this particular burden upon our community is reported by a Kittery merchant. He has recently been paying \$4.00 a day toll charges upon goods brought into Kittery from our neighboring city. The people of Kittery must, obviously, make good to the merchant the increased prices on account of these toll charges. The situation is not new. These goods are necessities for the people of Kittery. The addition to the prices of these goods delivered to the people of Kittery constitute a tax that is unfair to a small town, and a real burden that the people of the town are justified in resenting and complaining of.

They are of course helpless. There can be no helpful competition. Every

NEW OFFICERS INSTALLED

C. B. Amazeen Now Heads Wentworth Lodge, K. of P., of New Castle

The new officers of Wentworth Lodge, No. 22, Knights of Pythias, of New Castle, were installed on Friday evening, by District Deputy Grand Chancellor Harry A. Davis of Plaistow, assisted by Acting Grand Prelate John S. Carl of this city.

The officers, inducted into office were: Chancellor commander, C. B. Amazeen; vice-chancellor, C. A. Becker; prelate, Wayne D. Loe; master of work, S. E. Balson; keeper of records and seal, Andrew B. White; master of finance, C. C. Amazeen; master of exchequer, William J. Haywood; marshal-at-arms, William Walton; 1466, 24, J. Randall; G. O. S. B. Baker, trustee for three years, Henry Becker.

Following the installation ceremonies interesting remarks were made by Deputy Davis, Capt. S. H. Harding, Chancellor Commander Amazeen, who presented them to the banquet hall where an appetizing clam chowder prepared under the direction of Chief Haywood was served and all present did ample justice to the eating. After the dinner had been satisfied a social hour was passed before the visiting brothers took their departure. A pleasing feature of the evening was the presence of a number of the older members of the lodge who have been identified with its successes since its formation on March 17, 1872.

THEY MUST GET MARRIED AGAIN

A recent wedding occurred in this city which has caused the attention of the authorities in which the contracting parties were united in wedlock without first procuring the necessary license at the office of the city clerk. The clergyman who performed the ceremony states that he could see no violation of the law and thought he was acting within his rights from the fact that the couple had announced their intentions and were to join hands in a very short time.

However, the law covering such cases provides a fine of \$50 for any clergyman of justice of the peace who performs a marriage ceremony without the necessary certificate being in the possession of either the man or woman.

The matter has been put up to Mr. Watson, the registrar of vital statistics at Concord, for adjustment and while there was apparently no criminal intention on the part of the official clergyman or bride and groom, they will be obliged to appear again for the second appling.

OBITUARY

Thomas P. Watkins.

Word was received here on Saturday of the death of Thomas P. Watkins of this city, at the home of his daughter, Mrs. Emma Hall, at Haverhill, Mass. Deceased was for many years employed as a fireman on the Boston & Maine railroad and later was a flagman at several of the local railroad crossings. A few years ago he suffered a paralytic attack and has since been in poor health. He was a native of this city and was aged 69 years and 11 months. He is survived by three daughters: Mrs. Emma Hall of Haverhill, Mass.; Mrs. Enid Kline of Somerville; and Mrs. James Whitney of this city, and two sons, Charles and William, of this city; also a sister, Mrs. William Hudson. The funeral services will be held at the home of his daughter, Mrs. James Whitney, 32 Elgin street, on Tuesday afternoon, at 2:30 o'clock. Friends invited.

THE HEEL OF WAR.

"The Heel of War" by George B. McClellan, from the press of G. W. Dillingham.

Mr. McClellan was a former mayor of New York and is very familiar with the history of this war. He has visited all the countries including a thorough study of Germany. This should prove an interesting story to those who would care for a clear insight into the cause and present status of the great European war.

It would be next to impossible to see a better show than the one now playing at the Colonial Theatre.

KILLED TWO-YEAR OLD CHILD

Harold Craft, 16, Wanted for Murder of Infant Cousin.

(Special to The Herald)

Boston, Jan. 29.—Two year old Arlene Kern of 4 Slinson street, died early today from concussion of the brain and other injuries, according to the police by being clubbed to death by her sixteen year old cousin, Harold Craft, of 11 Norfolk street. The police are looking for young Craft. He was left in charge of the little girl and her four year old brother, Andrew J. Kern yesterday afternoon. When the mother returned, Harold and the Kern family dog were missing. The two children were undressed and in bed, and Arlene was dying. Andrew told his mother, "Harold hit Arlene with a stick." The police and Medical Examiner Leary say that Mrs. Kern found a note signed by Craft saying "I done it."

GERMAN BATTERIES SMASHED BY BRITISH BOMBARDMENT

Organized Fire Effective Against Hostile Trenches
--French Artillery Also Pounding at Enemy's Lines.

London, Jan. 25.—The following official communication was issued:

"Early this morning we exploded a mine opposite Giverny. Organized bombardments have been carried out on several portions of the hostile line. The hostile artillery has been active east and northeast of Loos, south of the Bois Grenier, northeast of Arras, and northeast of Ypres. Our artillery retaliated successfully on the hostile batteries and trenches."

The following official communication was issued by the French war office last night:

"During the course of the day there was considerable activity by our artillery on the whole front. In Belgium a destructive fire directed against the German trenches situated in front of Boesinghe and between Steenstraete and Hiet Sas caused serious damage to our adversary."

"In Artois, to the east of Neuville St. Vaast, the enemy attempted by a counter-attack to retake the craters, from which we drove him in the course of the night, but was completely repulsed. To the north of the Aisne our trench guns shattered the enemy organizations at La Ville-au-Bois."

"In the Argonne mine fighting continued to our advantage. Between Hill 235 and Haute Chevauchee we exploded two mines. The enemy suffered serious losses in the struggle which followed for the capture of the crater, one of the rims of which we hold."

"One of our long-range guns, took under its fire an enemy convoy which had entered Mangennes, to the northwest of Etain."

Italian Guns Stop Austrians
Rome, via London, Jan. 25.—The following official statement was issued by the Italian War Office:

"Along the whole front there has been artillery activity assisted by aeroplanes. The enemy artillery started a violent fire in the Terranova Valley, which was immediately mastered and stopped. Enemy aviators dropped bombs on Ronzegno and Borgon in the Sugana Valley, but without damage. Our artillery destroyed observation posts in the Franz Valley, the upper Sexten valley and at Monte Nero."

"In the Gorizia zone the enemy offensive was stopped, our troops holding firmly occupied positions. Detachments

of the enemy, which were reported marching towards the Isonzo bridge, were scattered by our artillery."

"On the Carso front on Wednesday one of our detachments by a surprise attack toward the San Martino Church gained ground which was promptly strengthened and held."

Tear Down German Flag

Berne, Switzerland, via Paris, Jan. 25.—An angry crowd at Lausanne, in the Canton of Vaud, tore down a German flag which had been hoisted by the German consul in honor of Emperor William's birthday. The Federal Council of Switzerland held an extraordinary session at which it was decided to offer apology to Germany for the insult to the flag. Meetings of the State Council of Vaud and of the Lausanne City Council were held for a like purpose.

Instructions were issued by the Federal Council to call upon the German minister to Switzerland and to express through him to his Government the deep regret of the Council for the incident at Lausanne, and the Swiss minister in Berlin was instructed by telegram to perform a similar duty at the German Foreign Office. The Council also sent orders to the police of Lausanne to prosecute the persons responsible for the insult to the flag, which is to be hoisted again and adequately protected. Delegations of the State Council of Vaud and of the Lausanne City Council called at the German Consulate in Lausanne and expressed the regret of those bodies."

Thaw Breaks German Lines

London, Jan. 25.—A despatch to the Daily Telegraph from Petrograd says:

"A thaw in the Oginski Canal district has caused the River Shara and Justola to flood the country, sweeping away trenches and fortifications which the Germans built when the ground was frozen hard, according to a telegram received here from Minsk."

"All the railways and roads have been turned into swamps and the German temporary field, railways have been washed away. The Germans are working waist deep in the water trying to extricate their guns, keeping up a heavy and protective rifle fire meanwhile."

"It is said that the washing away of a bridge at Lida, Government of Vilna

caused the wreck of a troop train in which a hundred persons were killed or injured."

"There are many cases of scurvy among the prisoners taken on this front."

Goeben Hard Hit

Petrograd, via London, Jan. 25.—An official communication made public says:

"It has been learned that the Turkish cruiser Goeben (Sultan Selim) sustained severe damage. In an engagement Jan. 5, her casualties included 33 men killed and 80 wounded."

"In the region of Bracium we stopped attempts by the Turks to assume the offensive, capturing prisoners. In the region of Melazghet we successfully encountered Turkish detachments."

Turks Retire at Kut

London, Jan. 25.—General Townshend, commanding the British force invested at Kut-el-Amara in Mesopotamia, has reported that the Turks have evacuated their trenches on the land line defenses at Kut and have retired, generally speaking, to about a mile from the British entrenchments. It was officially announced here.

No change in the situation was reported by General Aylmer, commanding the British column that has been marching to the relief of the Kut-el-Amara garrison.

Denies Disaster in Arabia

London, Jan. 25.—The official press bureau gave out a statement denying the truth of the reports contained in the Kolnische Volks Zeitung's despatch from Cairo concerning the situation at Aden.

British Hemmed in At Aden

Berlin, via London, Jan. 25.—According to the Kolnische Volks Zeitung's Cairo correspondent the situation of the British forces at Aden in December was reported to be dangerous. Aden was surrounded from the land side by numerous strong well-armed Arab tribes and a few Turkish regulars. The British garrison, consisting of 20,000 men, was said to be defending itself stubbornly, and only the fire from the warships saved them from capture.

For Better Air Defence

London, Jan. 25.—The Government has decided that henceforth the War Office shall be solely responsible for the defence of London from air attacks.

A parliamentary deputation was received by Earl Kitchener and A. J. Balfour, first lord of the Admiralty at the War Office, seeking information on the protection of London from air raids. The ministers explained to the deputation that the difficulties in securing adequate defence in the past were due to a deficiency in anti-aircraft machines—a deficiency also felt by the army and navy—but that efforts to remedy the shortage were meeting with good results.

A great development in the defence of London, they said, had been effected since the last air raid and the progress was not confined to the increase and organization of anti-aircraft artillery under the able superintendency of Sir Percy Scott, but extended also to improved arrangements for defence by aeroplanes.

Heretofore the War Office and Admiralty had cooperated harmoniously in this matter, but it was felt that unity of control was desirable, and that this was possible only if the whole work of defence were undertaken by the army. All the Admiralty responsibilities were in the course of being transferred to the War Office, and they hoped the transference would be completed in the next few weeks."

Work, Not Peace, for Peace

Berlin, via London, Jan. 25.—Among the speeches delivered in Berlin yesterday in celebration of Emperor William's birthday, the utterances of two men have attracted particular attention, Adolf Wermuth, lord mayor of Berlin, said:

"The emperor and the German people will find in peace their best reward for active perseverance. But we do not long for peace. The enemy started out with the purpose of destroying the countries in the heart of Europe. When ever the enemy abandons an effort on account of defeat, he claims an immortal place of honor in history. When ever the central powers conquer new territory their enemies refer to our despondency. Therefore, our country does not talk of peace does not yearn for peace, but fights and works for peace."

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When cross, feverish and sick give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

FOLLOWED GIRL UNTIL SHE MARRIED HIM

Son of Bangor Mill Overseer Married to Jennie Chick of Bob Ott Company.

Harold E. Jones, son of William F. Jones, superintendent of the Maxwell Woolen Mills at Bangor, Me., ended a long love chase at Burlington, Vt., Friday by marrying pretty Jennie O. Chick of East Boston, who was a chorus girl in the Bob Ott musical comedy company playing there.

The youthful Mr. Jones became infatuated with the young woman whose stage name is Jennie Chick, when the company was playing at Bangor. He trailed the company to Marlboro, Mass., and into Vermont. He has been in

Burlington all the week and Friday persuaded the girl to marry him. The ceremony was performed by a Justice of the peace.

Young Jones sent the first news of his marriage to his father in Bangor by telegram last evening.

The bride was born in Russia and has been on the stage several years. She is 22 and the groom gave his age as 21.

She is well known here having been in Portsmouth with the Bob Ott company on several occasions, and for the past two years has been wardrobe woman in addition to her stage work.

Two years ago when the company was here, one of the male members of the company who was much taken with her caused a scene at a local hotel where they were stopping over the fact that the girl was accepting attention from petty-officers of the navy.

ROCHESTER HAS \$15,000 FIRE

Rochester, Jan. 25.—At 9.55 tonight an alarm was rung in for a stubborn fire at the Seaside Theatre building on Central Square in the very heart of the business section.

The Seaside is a three story brick building owned by Louis H. McDuffee, and valued at \$25,000. On the first floor Mr. McDuffee conducts an up-to-date moving picture theatre and Thomas W. Osgood a newspaper and periodical store in which is also the headquarters of the Twin State Gas and Electric Light Company. On the second floor is the law office of Justin A. E. Preston and Company, and the real estate office of Harvey D. Smith. On the third floor are the two unoccupied offices.

When the fire broke out there were 100 people witnessing the show in the theatre but they fled out orderly, the most of them not knowing that the building was on fire. The fire had progressed but a short time when the pet Boston terrier of V. W. Preston appeared at the window of the insurance office, and Edward Danahy ascended a ladder, raised the window and brought the animal to a place of safety amid the cheers of the crowd.

The fire was confined to the center of the building and broke through the roof. Much damage was done by smoke and water. The loss on the building and fixtures is estimated at \$15,000; Osgood's loss, \$1,200; Emery, \$700; Preston and Company, \$300; Smith's, \$200; Twin State Gas and Light Company, \$100, partly covered by insurance. The fire is supposed to have caught from a lighted cigar stub, carelessly thrown in the balcony of the theatre.

BASKET BALL REVIVING.

Speaking of basket ball, it looks as though Portsmouth might get on the map with the other cities of the state and become prominent in a game that is once more becoming popular throughout the country. All the live cities and towns in New Hampshire are represented by fast aggregations of players and although we are late in getting started we should be very much in evidence before the season is ended.

A Herald man in conversation with a local party interested in this sport was informed that there seems to be a general desire to see some good fast basket ball. To promote a satisfactory brand of ball it would be necessary to install a cage. What we have in view would in no way conflict with the present local league as it is planned to play outside teams. It is expected to open the season here on Washington's Birthday, the promoter being assured that the Dartmouth College Independents will come here on that date. Nothing definite has been decided as yet in selecting the home site for this game, although the names of three local boys with two New Hampshire College players has been suggested by quite a few partisans of the game. This city has some good fast players and the Herald believes, with strong attractions, the old time interest is bound to appear.

TIMID

O. watchful Wilson
"What are you waiting for—
Another Mexican massacre
To George Hull's lurid maw?"

O' Wilson, watching, waiting,
Forever procrastinating!
Oh, quit your dilly dallying,
Your timid hesitating.

Watchman, tell us of the fight,
What the signs of promise are
And, if visible to mortals,
Are they near or distant far?

The Villa handles are watching, waiting;
Bent on murder, pillage, lust,
While "Columbia" frightened, trembling,
Shrills itself, recreant to her trust.

PRESENTED WITH GIFTS ON THEIR ANNIVERSARY

MR. AND MRS. LUKE ASHWORTH TENDERED SURPRISE ON TWENTIETH WEDDING ANNIVERSARY.

Mr. and Mrs. Luke Ashworth were given a surprise party at the home on Lincoln Avenue last evening on the occasion of the twentieth anniversary of their wedding. About forty of their friends gathered early in the evening and went to their home in a body. Mr. and Mrs. Ashworth were presented with a charming dish and much valuable china by their many friends and the evening was made a pleasant social occasion with music and games.

Mrs. Ashworth, after receiving from her complete surprise, rendered several pleasing vocal selections in an excellent manner, accompanied at the piano by Mrs. Schumann. Refreshments, which included salads, sandwiches, assorted cakes, tea cream and coffee were served the guests by the hosts.

R. J. Gilker of this city read an original poem, written by him, called "The China Wedding" and dedicated to Mr. and Mrs. Ashworth.

LAYS OUT NEW STATE TRUNK HIGHWAY

Concord, Jan. 25.—Frederick E. Everett, state commissioner of highways, has announced the layout of three sections of the Central Trunk line running to Norwood through Concord from Chremont by advice of the governor and council.

Under the law passed by the legislature at the last session the road is to terminate either at Dover or Rochester, and the decision as to the section from Norwood to the terminus will be announced as soon as the conflicting interests are harmonized.

The route as far as Northwood follows the plan generally agreed upon and passes through the towns of Claremont, Newport, Sunapee, Newbury, Bradford, Warner, Melvin, Roby, Sutton, Waterford, Ragley, Diamond, Duxbury, Hopkinton, Concord, Pembroke, Chichester, Epsom, Northwood, and East Northwood.

Of course, if you do your own washing you imagine that we can't do the work so good—or that our methods are harder on the fabrics. This is not so. Our work is equal, if not better than the domestic work, and, actually, our equipment is gentler on the articles than the scrub board method. All of our work is returned sterilized clean—and costs but a trifle.

NEW HAMPSHIRE MEN AT HEARING

URGE ADOPTION OF BILL TO PROVIDE FURTHER PURCHASE OF FOREST LANDS IN NEW ENGLAND.

Washington, Jan. 28.—To urge as "a measure of economy" the adoption of the proposed appropriation in this year's agricultural bill providing for the continuance of purchases of national forest land in the southern Appalachian regions and in New England, representatives of nearly 200 forestry and conservation bodies appeared at a hearing today before the house committee on agriculture.

The delegation was headed by Governor Craig of North Carolina, who explained the needs of the south for the completion of the national forest system as recommended by the national forest reservation commission.

Allan Hulla of New Hampshire was prepared to "sum up" and to point out that if the plan was not adopted the result would be deterioration of designated lands by fire and unwise lumbering and erosion and therefore a loss to the navigability, power possibilities and purity of the streams, increasing damage by floods to cities, towns and agricultural valleys.

The plan was to urge the committee to recommend that an item of \$10,000,000 be carried in the bill, to be available at a rate of \$2,000,000 a year, which would enable the "purchase of three to four hundred thousand acres of mountain woodland each year, to be developed for time production, watershed protection and public recreation grounds.

Besides Governor Craig and Mr. Hulla the speakers included Henry S. Graves, chief of the forest service; William L. Hall, in charge of the administration of the eastern forest; George Otis Smith, director of the United States geological survey; and Harvey N. Shepherd and Harold M. Parker of Boston.

MOFFETT WILL IS BROKEN BY COURT

JURY SAYS GREENACRE THEOSOPHIST'S WILL WAS MADE BY UNDUE INFLUENCE OF CELIA RICHMOND.

The will of Mrs. Ellen L. Dr. Moffett, Greenacre theosophist, has been broken by a jury on the ground that it was procured through undue influence and fraud of Celia Richmond, Carrie J. Daniels, a sister of the testatrix, was the contestant.

Mrs. Moffett, who lived at 162 Washington street, Brighton, and who, after the death of her husband in 1877, engaged in the dressmaking business with her sister in Temple Place, made her will on May 15, 1911. Miss Daniels declared that her sister was unduly influenced in the execution of her will by the terms of which she got only a small part of the estate, while sums varying from \$1000 to \$5000 were given to persons who are said to have been interested in theosophical affairs. The case was on trial before Judge Hardy and a jury in the second session of the Superior Court.

CEMETERY LOTS

CARED FOR and TURFING DONE

With increased facilities the subscribers again are prepared to take charge of and keep in order such lots in any of the cemeteries of the city as may be entrusted to their care. They will also give careful attention to the turfing and grading of them, also to the cleaning of monuments and headstones, and the removal of weeds. In addition to work at the cemeteries they will do turfing and grading in the city on short notice.
Cemetery lots for sale; also Loans and Turf.
Orders left at residence, corner of Richards Avenue and South Street, or by mail with Oliver A. Ham, Market Street, will be given prompt attention.

Do You Throw Your Money Away?

If you do not, save it by bringing your old clothes to us to be renewed and repaired. We can many times give you an extra year's wear out of a suit you consider hopeless. Our cleaning department is so far perfection as scientific knowledge and modern equipment can make it. In our dyeing department we make a specialty of turning out work at two days' notice.

VERDICT AGAINST CITY
IN MARSTON SUITJury Awards Albert R. Marston \$3,600 For Injuries
Resulting In Loss of Eye While Working For
City of Portsmouth

In the superior court yesterday afternoon the jury in the case of Albert R. Marston against the City of Portsmouth, returned a verdict in favor of the plaintiff, awarding him the sum of \$3,600. The case was opened Thursday afternoon before Judge Kivel of Dover, Mr. Marston bringing suit against the city for \$10,000 for injuries resulting in the loss of his right eye, alleged in the suit to have been brought about by an accident while the plaintiff was at work for the city on the Porter street sewer on Dec. 3, 1914.

The case was given to the jury at the noon recess and their verdict was returned shortly before 3 o'clock in the afternoon, when court was recessed until 10 o'clock Monday morning. The case was opened by Attorney Albert B. Hatch who assisted Atty. S. W. Emery for the plaintiff. The most important witness was Mr. Marston who gave a graphic account to the jury of the accident.

The accident according to the witness, occurred while he was working on rock with a drill. Other witnesses called were Timothy Kelly, time keeper of the board of Public Works; Dr. S. T. Ladd, Dr. P. S. Towle, Dr. A. J. Lance, and Albin M. Goodrich for the plaintiff.

The defense was presented by Judge J. L. Caplin and City Solicitor Jeremy R. Waldron who called as witnesses Gerald Cullen, acting superintendent at the time of the accident; Robert C. Carr, Frank Turner, and Timothy Kelly. The closing arguments were made yesterday between 11 and 12 o'clock and the jury was charged by Judge Kivel at 12:30.

In the suit the plaintiff alleged that the city was negligent in not properly inspecting the tools with which he had been working and the city's defense was based on a claim of negligence on the part of the plaintiff.

The jury which passed on the case was John M. Small of Seabrook, Foreman, Albert B. Colcord of Derry, Clarence O. Morse of Chester, T. Hus-

sell Sheehy of Newfields, Aaron A. Wilson of Derry, George B. Trus of Epping, John M. Seamon of Stratham, Fred W. Berry of North Hampton, Frank Sewall of Newmarket, William Brown of Hampton, Daniel Courtney of Exeter, and Thomas Jackson of New Castle.

THE HERALD HEARS

That Portsmouth did its share on the Jewish relief fund.
That the Old South Church fire at Boston seems to have started something.

That Portsmouth firemen still claim that Engine 3 and her crew did the job.

That water freight rates is the reason for the quiet spell at the North End coal docks.

That all the coal-carrying craft are busy running to South American and other ports.

That they are all making big money on coal and oil shipments.

That a bunch of local sports recently made a trip in a Ford to Manchester, N. H.

That they are not saying much about the ride to the Queen City but it certainly was some event.

That the driver of the car cannot account for the mixup with the telephone pole.

That the pole is in the same place but the car will be off the route until the spring of 1916.

That the man who pushed his dome through the wind shield and came out without a scratch has reason to shake hands with himself.

That one of the several Portsmouth boys who are in Elliot on Sundays and quiet often during the week says that he may yet get back if the wrist watch stands for anything.

That the Haid Cider club says the water wagon has been lost or held up somewhere along the line.

That if the club has good luck it will hold an outing at the camp at Great Bay on Sunday.

That a local wine clerk will be there with a new brand known as the deaf and dumb beverage.

That the Bottlers Union has a hero in the ranks.

That this hero has something coming to him in the form of a medal for stopping runaway horses.

That he doesn't care to be classed as a hero but will be obliged to accept the medal for his gallant work.

That female cooks are not always afraid of fire.

That one recently refused to leave a burning house where she was employed without a month's notice.

That the spring season will likely arrive at Saco, Me., ahead of other places.

That robbers in that town are no in-
